Outstanding Small Project

Soldier Family Assistance Center

Submitted by Mass Service & Supply

The Soldier Family Assistance Center is a 14,500-sq-ft, LEED-Silver-certified design-build project at Fort Carson. The facility is intended to be similar to a community

center in the civilian sector.

The Soldier Family Assistance Center provides a “home away from home” for soldiers and their families. The main pur-

Fort Carson, Colorado Springs

\$8 million

Owner: U.S. Army Corps of Engineers

Contractor: Main/Mass, SDVOSB JV

Architect: DLR Group

Engineers: Nolte Engineering, MGA Structural Engineers, M.E. Group

Among the Subcontractors: Pueblo Electrics, El Paso Plumbing, Colorado Sheet Metal, Silver Eagle Construction Co.

Start: April 2009 **Finish:** March 2010

pose of the SFAC, as part of the Warrior in Transition program, is to help soldiers transition into the community.

The building is designed to accommodate this mission by providing an hourly child care area with a playground. The facility also offers a computer lab, conference room, reception area, administrative offices, nourishment center, toilets, storage and training areas where various classes such as career counseling can be held. ■
